## ? WHERE IS NAGOYA

Nagoya is one of Japan's three largest cities. It is a large city with a population of 2.2 million that has developed since ancient times as a castle town of Nagoya Castle and has flourished as the center of politics, economy, culture and learning in the Chubu region. Not only subways and buses, but also railways and bullet trains are running, making it a key transportation hub.

In addition, automobile production and technology bases are concentrated, and it is the cornerstone of the Japanese automobile industry. For this reason, there are various vocational schools for learning automobile technology in this area, which is advantageous for further education and employment.
